

Mission Mosaic Instructions

The Mission Mosaic is designed to be an interactive worship experience. The more you participate, the more you will receive out of this opportunity.

Instructions:

- Please turn off your mobile phones, or set them to silent. Ringing cell phones will interrupt someone else's experience with God.
- Please refrain from talking. You do not want to be a distraction.
- Take your time. Do not rush through the Mission Mosaic, it is not a race. You have plenty of time to interact with each mission station.
- There is no particular order you must follow to proceed through the stations. If one area is congested, feel free to move to another station and come back.
- Your best experience will take place when you prayerfully and fully interact with each station. The more you hold back, the less you will receive.
- When you have finished interacting with the Mosaic, take a seat and quietly read your Bible or pray until everyone else has finished.
